**PROJECTS** 

Project 1 React. Js, Css GitHub

- Designed and developed Personal Portfolio website using React. Js and Css.
- Utilized responsive design to ensure compatibility across all devices.
- Integrated a contact form using **email.js**, enabling visitors to send messages directly from the website. Implemented form validation and error handling for accurate user input.
- Incorporated **Framer Motion library** to create smooth and engaging animations, enhancing user interaction and visual appeal of the website.
- Implemented smooth scrolling navigation using **React Scroll**, enabling seamless transitions between sections and pages for an improved user experience.

Project 2 Html, Css, JavaScript GitHub

- Designed and developed Weather App website using Html, Css, JavaScript
- **Real-Time Weather Data:**Integrated the OpenWeather API to fetch up-to-date weather information, including temperature, humidity, wind speed, and weather conditions.
- **Location-Based Forecast:** Implemented geolocation functionality to automatically detect the user's location and display the local weather forecast.
- Search Functionality: Enabled users to search for weather information in specific locations by entering city name.

• Utilized responsive design to ensure compatibility across all devices.

Project 3 Html,Css,JavaScript,PHP, MySQL Git GitHub

- Designed and developed Online Examination System website using HTML, CSS, and JavaScript.
- Utilized **responsive design** to ensure compatibility across all devices.

Project 4ReacrJS , Css , firebase, GitGitHub

- Designed and developed Car Parking Reservation System website using ReactJS Css and firebase.
- Utilized **responsive design** to ensure compatibility across all devices.

# **CERTIFICATIONS**

- Database Management System Certification by Swayam NPTEL
- Web Development Certification : Internshala Trainings
- Programming with Python: Internshala Trainings

## **LANGUAGES**

• English, Hindi, Odia, Telugu
